RICE FIELDS reclaimed from woods - make the most money

e.g. Yamoung Mts in Kébia

RICEFIELDS

RICEFIELDS usually bring high prices/crop

to market even from the nearest place

But because there is such a large number

of Doungs and banyans - the price of rice

increases

PRICE of RICE?

For white rice - along road through Kébia

for a market price (1:250 lb)

9240 catties + 2000 Pilsa

650 catties = 650 gins

For low good quality:

to 100 catties

generally only 200 catties of rice on market in Doung Kébia

under Price 7000 rice = 100 catties p.p. rice

low quality

-1804-
(Yoga)

EXAMPLE: PROFIT MAXIMIZING PRODUCTION

Output = 240 units with rice

60 days

marketing expenses

the 240 units of rice produce 16 days

then on each month price @ market

marketing expenses: 9.8

marketing cost 20 days 0.5

costs in 60 days

1. Marketing expenses on product:

Yogya

= 15.6

91.6 = profit = 8#

- overhead

unit price for one month selling rice in Yogya market

96.5 units

∴ on 240 units = 84 units sold 2.3% per price

clearly 4 weeks

then to work 11 months = 11 months 84/100 = 84%

also must look out for costs -

one price - 125.4

logically rice = 3750/100 = 37.5

rice in Yogya = more expensive than other places

poor roads /

when compared roads along

N. coast - Surabaya

and Surabaya to state capital

rice in state 1/12 cost than Yogya

Bagikan / Banyuwangi / Lima / Kediri = very young rice

but transport difficult

Gold Farm Letter for
R.T. Ricksanigara Pa. 1807

Rouffner
notes
K121
H 696.

I, Sultan Hamengkubuwana etc give this letter under my seal to my subject Reksanegara as a proof (evidence) to all my subjects both Bupatis and Mantlis who come under my rule in Yogyakarta Adiningrat as well as those in the managara provinces, to make known that the reason why I have accorded this letter to Reksanegara is because I have once again favoured him and hereby permitted him to take the farm of all domains such as bandars or tollgates rangkaks, salarangs, the Gedhong tembakau in Kedhu, the slaughtering of buffaloes, the salt works (salt works) on the south coast and the birds' nest rocks; everything which is under my administration in Yogyakarta Adiningrat for an amount of 60,000 ronder realen silver per annum and in case payment be made in copper duts, the same shall be acceptable at the rate of 1 real for 20 dubbeljes of 10 duts each. The tax farm money must be paid in two instalments each year: half or 30,000 r.r. at the festival of Mulud and the other half, also 30,000 at the feast of Pusa. Under this tax farm are not to be included my pasars and rangkaks within the capital (Yogya) as well as those in the vicinity, these being also excepted such as Tanjung Tirto, Tegalsari (with its tollgate) and the so-called pasar perdikan which belong to the priests as well as my pasars and bandars in the mancanagara provinces as well as the tollgates along the great river (Bengwana Sala) and the birds nest rocks in those areas xxx be also excepted from the same--- furthermore if the tobacco harvest has not been placed in the warehouses and the time of this farm be expired, this article will be considered to relate to this and not to subsequent farm (similarly with the three collections of birds nests each year) -- the farm of the birds nests is worth 12000 r.r. for each half year, but this is to be separate and not to be reckoned under the previous tax returns, and it is also stipulated that I shall be allowed to send for my own use 110 sapit pengliput or beasts of burden three times each year without having to pay tolls or other taxes on passing through tollgates, rangkaks and salarangs

On each occasion that the farm moneys are paid, the pangirings or presents must be: pathoolen (kains); (see n. of Rouftaer), Gold thread, silk, tea, candy, sugar and Chinese & sweetmeats (confituren), candied fruit; consisting of 10 pairs Pathoolen Jelangprang, each pr. worth 25 r.r.; 10 pathoolen kankigara, each pr. worth 15 r.r.; if I want pathoolen kankigara kenanga people must produce them for me at the same price as the pathoolen Jelangprang and kankigara; 10 pounds of Gold thread each of 12 threads and 18 heavy reals; worth 24 reals; 20 catties of silk, of which 9 catties of green and 9 of red and 2 of rose (merah jambu) or light red silk, the cattle I fix at 8 reals worth. These together are worth the sum of 1230 r.r. under which is reckoned the sum of 430 r.r. per half year for the payment of candy sugar, tea and candied fruit (confituren); the pathompos money is reckoned at 10 per 1000 (1% of the instalment), 30 r.r. for the purchase of the serat papak and 31 r.r. for the panglamar or accountant (? goldsmith) or Sultan's goldsmith (?)

If there are some of my subjects who pass tolls xxx carrying loads (pikulans) which do not contain merchandise (negotiable goods), I permit them to pass without paying a toll -- if there are any of my family, children or great or small priyais who possess ricefields and they transport the padi or rice to Yogya either by coolies or on horseback or on other beasts of burden they are also to be allowed to pass through (without paying tolls) -- whenever one of my subjects at the time of the Garebeg feast journeys here or even outside the time of the Garebeg and they carry loads with negotiable goods (merchandise) I do not allow it that tolls should be raised on them but if the load is asked to be inspected at the tollgate this must be allowed -- and if they are found to carry merchandise they must pay the due toll for it, but they must pass through freely if they have no merchandise; people should make a distinction between merchandise and non-merchandise and I forbid that tolls be raised on small quantities of kain and tobacco which are being carried as presents for the lords apasara holders. In the event that a tollgate keeper presents for the toll order raises tolls on any of my subjects who do not carry merchandise and an argument ensues, he shall be punished by me after an

the

Kedhu

Investigation of the case and if it is a Javanese who passes the toll with merchandise and he hides it in order to pay no toll or instead of going through the tollgate takes another road and after due investigation this is found to be the case, he shall also be punished by me - and Reksanegara shall retain his 5 Mantris, who shall do work for him when there are issues (historiaalen) concerning the tollgates or when I order him to carry out things and at each Garebeg ceremony Reksanegara must march out as many prajurit's armed as an outer Bupati is obliged to do -- and Reksanegara shall keep the tax farm for the period of three consecutive years which I have fixed as long as all goes well but if he behaves badly or does not produce the tax properly he shall be dismissed even though the 3 year tax term is not yet up

By order of H.H. Wed. 1 Sawal de A.J. 1734 (2 Dec. 1807).
